MASTER SOFTWARE SERVICES AGREEMENT

TEST CONTRACT — INFORMATION TECHNOLOGY / SaaS

Document purpose: Synthetic test data for an AI Contract Intelligence / Risk & Compliance platform. This document is fictional and must not be treated as a real legal agreement.

Contract ID	IT-SaaS-MSA-2026-0147
Effective Date	October 1, 2026
Term	24 months
Industry	Information Technology / Software as a Service
Agreement Type	Master Services Agreement
Governing Law	State of Delaware, United States

1. PARTIES

This Master Software Services Agreement (“Agreement”) is entered into between **Northstar Cloud Systems, Inc.**, a fictional Delaware corporation (“Provider”), and **Vertex Digital Solutions Pvt. Ltd.**, a fictional information technology services company (“Customer”). Provider and Customer may each be referred to as a “Party” and together as the “Parties.”

2. SERVICES

Provider will provide Customer with access to its hosted software platform, API services, technical support, security monitoring, analytics dashboards, and related implementation services. The services are described in applicable Statements of Work (“SOWs”) and Order Forms executed by the Parties.

3. FEES AND PAYMENT

Customer will pay the subscription and implementation fees stated in the applicable Order Form. Subscription fees are invoiced annually in advance unless otherwise stated. Undisputed invoices are payable within **30 days** of the invoice date. Late amounts may accrue interest at the lesser of 1.5% per month or the maximum rate permitted by law.

4. SERVICE LEVELS

Provider will target **99.9% monthly availability** for the production SaaS service, excluding scheduled maintenance, emergency maintenance, force majeure events, Customer-caused outages, and third-party services outside Provider’s reasonable control. Service credits are Customer’s exclusive remedy for qualifying availability failures under the applicable SLA.

5. DATA PROTECTION AND SECURITY

Provider will maintain commercially reasonable administrative, technical, and physical safeguards designed to protect Customer Data against unauthorized access, alteration, disclosure, or destruction. Provider will use encryption in transit and at rest where supported by the service architecture. Provider will notify Customer without undue delay after confirming a security incident affecting Customer Data, subject to applicable law and security investigation requirements.

6. CUSTOMER DATA

Customer retains all rights, title, and interest in Customer Data. Customer grants Provider a limited right to process Customer Data only as necessary to provide, secure, maintain, and improve the contracted services, subject to the Agreement and applicable data protection requirements. Provider will not sell Customer Data.

7. ARTIFICIAL INTELLIGENCE FEATURES

Certain platform features may use machine-learning or generative-AI components for classification, summarization, search, anomaly detection, or workflow assistance. AI-generated output may contain errors and is provided as decision-support information rather than professional legal, financial, or compliance advice. Customer remains responsible for reviewing material AI-generated decisions before taking consequential action.

8. CONFIDENTIALITY

Each Party receiving Confidential Information will use at least reasonable care to protect it and will use it only for purposes related to this Agreement. Confidential Information does not include information that is publicly available without breach, already lawfully known, independently developed, or lawfully received from a third party without confidentiality restriction.

9. INTELLECTUAL PROPERTY

Provider retains all rights in its software, platform, documentation, APIs, templates, models, and underlying technology. Customer retains rights in Customer Data and Customer-specific materials supplied by Customer. No ownership rights are transferred except as expressly stated in an executed SOW or Order Form.

10. WARRANTIES

Each Party represents that it has authority to enter into this Agreement. Provider warrants that the services will materially conform to the applicable documentation during the subscription term. Except for express warranties stated in this Agreement, the services are provided without additional warranties to the maximum extent permitted by applicable law.

11. LIMITATION OF LIABILITY

To the maximum extent permitted by law, neither Party will be liable for indirect, incidental, special, consequential, or punitive damages, including lost profits or lost revenue. Except for excluded claims expressly identified in this Agreement, each Party's aggregate liability will not exceed the fees paid or payable by Customer during the **12 months** preceding the event giving rise to the claim.

12. INDEMNIFICATION

Provider will defend Customer against third-party claims alleging that the authorized use of the services infringes a U.S. intellectual-property right, subject to the limitations and exclusions in this Agreement. Customer will defend Provider against third-party claims arising from Customer Data, unlawful use of the services, or Customer's material breach of the Agreement.

13. TERM AND TERMINATION

The initial term is 24 months beginning on the Effective Date. Either Party may terminate for material breach if the breach is not cured within **30 days** after written notice. Provider may suspend access where reasonably necessary to address a security threat or material misuse. Upon termination, Customer will have **30 days** to export available Customer Data, unless prohibited by law or a specific Order Form.

14. AUDIT AND COMPLIANCE

Upon reasonable written request, Provider will provide available compliance documentation relevant to the services, which may include independent security assessment reports, policies, and certifications. Any audit must be conducted during normal business hours and in a manner that does not unreasonably disrupt Provider's operations.

15. SUBPROCESSORS

Provider may use third-party subprocessors to deliver hosting, monitoring, communications, analytics, or support services. Provider remains responsible for subprocessors' performance of obligations applicable to Customer Data under this Agreement.

16. GOVERNING LAW AND DISPUTES

This Agreement is governed by the laws of the State of Delaware, without regard to conflict-of-law principles. The Parties will first attempt in good faith to resolve disputes through executive-level discussion before commencing formal proceedings.

17. GENERAL

Neither Party may assign this Agreement without the other Party's prior written consent, except in connection with a merger, reorganization, or sale of substantially all assets. This Agreement, together with executed Order Forms and SOWs, constitutes the entire agreement concerning the services and supersedes prior discussions on the same subject matter. Amendments must be in writing and signed by authorized representatives of both Parties.

SCHEDULE A — COMMERCIAL AND RISK DATA
